Subject(s): Clear see-thru cover for Macintosh laptops

Interest Level: _Business _all ages _adult _college _High sch

Anyone with a laptop

Description of product:

Clear case for scratch protection – Convenient access to all ports – Vented design for heat dissipation

Strengths:

Protects laptop finish.

Weakness & Limitations: Makes my MacPro a little bit thicker (actually only 1/16” and slightly heavier. Difficult to remove cover but that is probably what makes it stay attached to the laptop.

Comments: This is a “gotta have” if you want to protect your laptop finish. Available in clear or translucent red.

Ratings:

*****Excellent ****good ***average **weak/acceptable *poor

Format or size: Available for 13” or 15”

Ease of use: Easy to put it on the laptop. Requires a little effort to remove it.

Packaging: Interesting packaging looks like a case with a laptop already in it.

Vice President of MacBUS and membership chairman. I use the laptop for presentations when I teach classes and when on the road whether for work or play.
